PROFESSIONAL EXPERIENCE

DevSecOps Software Engineer, Spiral Solutions and Technologies Inc. | Feb. 2018 – Present
Bellevue, NE

Utilizing Agile methodologies to develop and maintain a suite of web applications that support and adhere to the requirements of multiple United States Air Force Military bases and planes.

- Develop and Maintain Web Applications built in **VueJS** and **Blazor**
- Develop and Maintain **.NET Core APIs** to interface with **MSSQL** and **MongoDB** databases
- **Dockerize** our applications for easy deployment on our development servers and ease of delivery to restricted areas
- Create, Build, and Release **Azure Pipelines** for both our Web Applications and APIs
- Work with a small team of developers in an **Agile Environment** using Azure **DevOps**
